GRAPHIC DESIGNER

HELLO,

I am a graphic designer by education and profession with a specialisation in commercial design. I fell in love with graphic design in 2013 and have been doing it professionally for over 7 years. TTL's marketing have no secrets for me, I find myself in a wide range of graphic design. I don't like to treat design in a standard way, so I take an individual approach to each project. Now I am developing in UX and UI design under the supervision of a mentor.
